

K. N. O. T. S.

We are connected. Like a tapestry of knots, we each play a part in the strength and design of the fabric of our community. We give and receive support from those we are connected with. A single knot is beautiful and can be strong – but it does not make the tapestry alone.

Know Yourself

Who are you? Experience, passion, availability, skills, resources, needs, etc. Our greatest glory is always aligned with our greatest weakness.

Notice Others

What is happening in the lives in your social network? Awareness and curiosity without judgement open up opportunities that match resources.

Offer What You Have

When the appropriate opportunity arises, be generous. BUT, know your capacity – not every opportunity is an opportunity for you to take.

Take What You Need

When you are on the receiving end, be humble and grateful. This is the role we play that allows others the joy of offering. We need each other.

Share the Story

Help make KNOTS, the way we do it in our community. Stories define and sustain our culture.
